

PEAK

TECHNOLOGY

*Our products give wings to helicopters, fuel Formula 1 cars,
launch rockets into space, electrify aviation,
store hydrogen and win the 24 hours of Le Mans.
The challenge drives us.*

VACATION AND PROFESSIONAL INTERNSHIPS (f/m/d)

WHO WE ARE

We are a globally operating technology provider specializing in flexible fiber-reinforced lightweight structures. We set new standards for innovation and quality in the motorsport and aerospace industries.

WHO WE ARE LOOKING FOR

Are you about to complete your degree and looking for an opportunity to write a scientific thesis, or are you searching for a multi-month internship?

In our company, you can gain extensive insight into a wide range of areas and get to know our diverse tasks across the aerospace and motorsport sectors.

In all these fields, we are seeking talented individuals and team players who, with their hands-on attitude and proactive work style, contribute to the continued development of our company.

WE OFFER

- A versatile role in a successfully growing company
- Technical innovation and challenges in the motorsport, aviation, and aerospace industries
- Training programs to promote professional and personal development
- A collegial work atmosphere with a first-name culture in a company that values teamwork
- Meals provided by the company kitchen with freshly prepared dishes daily
- Flexible working hours
- Various company events
- Further benefits such as: Company mobile phone, company bicycle, climate ticket, corporate benefits, ...

We are looking forward to your meaningful application!
