

*Our products give wings to helicopters, fuel Formula 1 cars,
launch rockets into space, electrify aviation,
store hydrogen and win the 24 hours of Le Mans.
The challenge drives us.*

To strengthen our team we are looking for a:

PRODUCT ENGINEER (f/m/d)

YOUR TASKS

- Development of fiber composite components for rocket structures and composite pressure vessels, including the assessment of technical feasibility, taking into account the requirements in terms of functionality, costs, weight and installation situation
- Selection, development, design and qualification of fiber composite materials and manufacturing processes for the manufacture of components
- Technical supervision of the manufacturing processes (creating and processing construction documentation, evaluation of construction deviations) including coordination with the relevant department
- Creation of drawings and documents (work instructions, manuals, system descriptions) for production, qualification and testing
- Technical coordination with external partners, subcontractors, customers and internal departments on technical requirements, solutions and their evaluation
- Participation in the definition of new developments, modifications and in configuration management

YOUR PROFILE

- Completed technical education (HTL, University or FH) in the field of aerospace engineering or comparable field of study (e.g.: mechanical engineering, lightweight construction, ...)
- Interest in lightweight structures and fiber composites
- Good knowledge of 3D CAD systems, preferably CATIA V5
- Analytical thinking, high flexibility and resilience
- Very good knowledge of spoken and written German and English
- Very good MS Office skills
- Independent and structured way of working
- Ability to work in a team

WE OFFER

- A versatile role in a successfully growing company
- Technical innovation and challenges in the motorsport, aviation, and aerospace industries
- Training programs to promote professional and personal development
- A collegial work atmosphere with a first-name culture in a company that values teamwork
- Meals provided by the company kitchen with freshly prepared dishes daily
- Flexible working hours

- Various company events
- Further benefits such as: Company mobile phone, company bicycle, climate ticket, corporate benefits, ...

Based on your education, qualifications, and professional experience, we offer you an attractive, market-competitive salary. This ranges between EUR 33.100,00,- and EUR 48.900,00,- gross per year on a full-time basis.

We are looking forward to your meaningful application!
