

Our products inspire helicopters, fire Formula 1 cars, launch rockets into space, electrify aviation, save hydrogen and win the 24 hours of Le Mans. Challenges drive us.

To strengthen our team, we offer the opportunity for:

Initiative Application for students / interns (m/f/d)

WHO WE ARE

We are a global technology provider for flexible fibre composite lightweight structures and set new standards in terms of innovation and quality in the motorsport and aerospace industries.

WHO WE ARE LOOKING FOR

Are you about to graduate from university and looking for an opportunity to write a scientific paper and/or are you looking for an internship for several months?

Then you can gain a comprehensive insight into a wide range of areas in our company and get to know our varied fields of activity in the aerospace and motor sports industries.

In all these areas, we are looking for talents and team players who contribute to the further development of our company with their "Hands-on" attitude and way of working.

WE OFFER

- Technical innovation and versatile challenges
- Training to promote professional and personal development
- Family atmosphere with a "you" culture in a company where the "we" is important
- catering by the company kitchen with freshly prepared meals every day
- flexible working hours
- various company events

We look forward to your meaningful application.
