

At Peak Technology, we develop and produce high-performance solutions for motorsport and aerospace. Our products power Formula 1 cars, launch rockets into space, accompany satellites in orbit, and win the 24 Hours of Le Mans. What drives us? The next tenth of a second, the next orbit. If you're ready to push boundaries, join our team.

Und deshalb suchen wir dich als:

QUALITY ASSURANCE EMPLOYEE (f/m/d)

You will inspect components, document results, and ensure that our products meet the highest quality standards. You will work closely with production, engineering, and quality teams while actively shaping processes.

YOUR MISSION

- Independently inspect components according to test plans (manual measurements, Conturograph, magnetic field measurement, etc.)
- Prepare test reports and customer documentation
- Review material certificates and supplier documents
- Record deviations and support root cause analyses
- Collaborate with production, engineering, and quality teams
- Receive training in non-destructive testing methods (e.g., ultrasound or eddy current testing)

WHAT YOU BRING

- Completed technical education (apprenticeship, HTL, or similar)
- Strong quality awareness and precision
- Ability to read and interpret technical drawings and documents (English included)
- Proficient in MS Office
- Good command of English
- Independent, structured work style and team spirit
- Experience with CAQ software (Babtec) and professional experience in quality assurance is a plus
- Willingness for professional development

WHY JOIN US

- A varied role in a fast-growing, successful company
- Exciting challenges and cutting-edge innovation in motorsport and aerospace
- Opportunities for professional and personal growth through training and development programs
- A friendly, team-oriented environment with a collaborative, first-name culture
- Freshly prepared meals from our in-house kitchen
- Flexible working hours to support a healthy work-life balance

- Fun company events throughout the year
- Additional perks such as a company phone, bike program, public transport pass, and other corporate benefits

Based on your education, qualifications, and professional experience, we offer an attractive, market-compliant starting salary from EUR 40,000.00 gross per year on a full-time basis. The actual remuneration will be determined in accordance with your individual educational background and relevant work experience.

We are looking forward to your meaningful application!
